

*Keeping Lake Property Owners Informed and Involved*

---

*Slow, No Wake Orders Effective Immediately*

Due to recent heavy rainfall, Dane County is declaring a slow, no wake for entire surface of Lakes Mendota, Monona, and Waubesa. The restrictions for watercraft to slow down will take effect immediately today at **10 a.m. Tuesday, August 21, 2018.**

Given the amount of rain last week and again last night, the high lake levels exceed the threshold for slow, no wake requirement. The rainfall last night broke the record for the State of Wisconsin of rainfall in a 24 hour period.

Deputies from the Dane County Sheriff's Office Marine and Trail Division will be enforcing the slow, no wake restrictions on area waterways.

During high water levels, it is important for property owners on all lakes to prevent their piers from floating and creating navigational hazards by securely fastening the pier sections to the frame, adding weight, or removing the pier from the water.
