

**CTH M
Oncken Road to STH 113
Dane County**

**Virtual Public Involvement Meeting / Presentation – June 2021
Updated Project Information – Scope Change at County K Intersection**

The Dane County Highway and Transportation Department and KL Engineering, Inc. are conducting a virtual Public Involvement Meeting for the CTH M project in the Town of Westport. To comply with COVID-19 restrictions, public involvement efforts for the project have been moved online or through virtual platforms.

This meeting is being held to provide details about a significant change in the Project Scope – ***a signalized intersection alternative has been recommended for the County K / North Shore Bay Drive intersection.*** At previous Public Involvement Meetings, a roundabout was identified as the preferred alternative. Further investigations of the costs and long-term traffic analysis determined that a signalized intersection alternative was a better overall option. North Shore Bay Drive will be the south leg of the County M and County K intersection and will not be separated. Also, a section of County M will be closed to traffic for a short period to accommodate the reconstruction of the railroad crossing near the State Highway 113 intersection.

An update presentation and displays are available for viewing at the project website starting on June 10, 2021. Use this link:

<https://countyofdane.maps.arcgis.com/apps/MapSeries/index.html?appid=5e28a536e6064ae99f3592c123621c6b&entry=3>

Or you can also access information through the Dane County Highway and Transportation Department website: (<https://highway.countyofdane.com/highway-projects>).

The website will have a video presentation as well as displays showing the proposed preliminary design for the project. All persons having an interest in the project are encouraged to view the website and provide input by email or mail to project staff. **Please return your comments by July 10, 2021.
