

2021 Town of Westport Road Improvements Weekly Update for the Week of June 28th

The contractors will begin the road improvements for phase 1 on or about **Tuesday, June 29th**. They will begin rebuilding the roadway base (gravel) at the south end of Huntingwood Way and progress from Rainbow Road to the Termini (east). As the work winds down on Huntingwood Way, they will continue rebuilding the base on Moonlight Drive, and finally Riveredge Road to the Mary Lake Park. In addition, they will complete the improvements on Shamrock Road in phase 1. Once they complete the road base, they will pave the roads in phase 1, before starting on phase 2.

The roadway will remain open to vehicular travel throughout the project. However, vehicles may encounter lane restrictions and possible brief delays during the construction. The Contractor will make every effort to provide access to private driveways for residential driveways during the project and at the end of each day. However, there may be short periods of time when vehicle access to your property may not be possible. For the safety of the workers, we ask that you please be aware of the construction equipment and workers and limit the use of the road during construction hours from 7am – 7pm.

In preparation for the construction, we ask that any landscaping or private underground utilities (such as an invisible dog fence, lawn sprinkling systems, special topsoil’s, decorative fencing, etc.) that may be located within the construction area or immediately adjacent to the existing road, be removed and salvaged by the property owners. If you are not sure if they will interfere with the construction, please contact us.

In order to ensure regular U.S. Mail deliveries, the Postmaster has instructed the contractor to install temporary mailbox stations. **The Mailbox Station for Huntingwood Way will be located on Rainbow Road just southwest of Huntingwood Way (see attached Map). Deliveries to the temporary mailbox stations for the other roads will begin when the construction starts on your road. Please watch for additional information to be posted on the mailbox station and in the weekly updates.**

The existing permanent mailboxes may be removed to accommodate the construction. If so, they will be removed and placed on your lawn. Please store them away for safe keeping until contractor is ready to re-install them (towards the end of the construction). If you would like to replace your existing mailbox post, please purchase a new one and make it available to the contractor, and they will re-install them. Please contact the post office if you have any questions regarding specific mail deliveries.

All lawn and terrace areas that are disturbed during the construction will be restored with grass seed. We ask that you please water and maintain these areas as needed after they are restored to promote new growth.

We do not anticipate any disruption of weekly refuse pick-up. Please put your trash and recycle receptacles out at the edge of the road and the contractors will assist with pick-up.
