

2021 Town of Westport Road Improvements Weekly Update for the Week of July 26th

Phase 1

The asphalt paving for the Phase 1 road improvements is scheduled to begin on **Monday, July 26th**, weather permitting. The asphalt paving contractors will begin by placing the first lower layer of asphalt on Monday 7/26, and will place the second and final upper asphalt surface layer on **Tuesday 7/27**.

In order to provide the best possible asphalt surface, and for the safety of the workers, the roads will be closed to ALL traffic during the placement of the second and FINAL layer of asphalt surface, and for a few hours after completion until the pavement has sufficiently cooled. In order to minimize any potential damage to the new asphalt surface, we ask your cooperation to restrict your vehicular travel and residential driveway parking until the barricades are pulled back and the street is again opened to traffic. The contractors will then complete the shouldering and lawn restoration.

At this time, we anticipate that USPS pick-up and deliveries to the temporary mailbox stations for phase 1 will end the day after the asphalt paving is completed. Please watch for additional information to be posted on the mailbox stations.

Phase 2

The phase 2 road improvement work is scheduled to begin on **August 3rd** with the removal of the existing asphalt surface. They will begin rebuilding the roadway base (gravel) on Riveredge Road at Mary Lake Park and continue westward to Maria Way and Sunset Trail.

The roadway will remain open to vehicular travel throughout the project. However, vehicles may encounter lane restrictions and possible brief delays during the construction. The Contractor will make every effort to provide access to private driveways for residential driveways during the project and at the end of each day. However, there may be short periods of time when vehicle access to your property may not be possible. For the safety of the workers, we ask that you please be aware of the construction equipment and workers and limit the use of the road during construction hours from 7am – 7pm.

In preparation for the construction, we ask that any landscaping or private underground utilities (such as an invisible dog fence, lawn sprinkling systems, special topsoil's, decorative fencing, etc.) that may be located within the construction area or immediately adjacent to the existing road, be removed and salvaged by the property owners. If you are not sure if they will interfere with the construction, please contact us.

In order to ensure regular U.S. Mail deliveries, the Postmaster has instructed the contractor to install temporary mailbox stations. **The Mailbox Stations for Phase 2 are shown on the attached Map. Deliveries to the temporary mailbox stations for the Phase 2 work will begin on August 3rd or when the surface removal begins. Please watch for additional information to be posted on the mailbox station and in the weekly updates.**

We do not anticipate any disruption of weekly refuse pick-up. Please put your trash and recycle receptacles out at the edge of the road and the contractors will assist with pick-up.
